REPORT OF THE SUPERINTENDENT.

To the School Board of Jaffrey:

I herewith submit my first annual report—the fifth annual report of the superintendent of schools in Jaffrey.

The membership by schools and by grades on Feb. 1st, 1913 is as follows:

MEMBERSHIP BY SCHOOLS AND GRADES.

SCHOOLS	GRADES								Total	Increase or decrease by Schools
	I	II	III	IV	V	VI	VII	VIII		
Grade I	40								40	Minus 12
" II		41							41	Plus 6
" III			40						40	Plus 3
" IV				34					34	Minus 1
Sub-Grammar					22	28			50	Minus 2
Grammar							20	10	30	Plus 6
Number 3	9	5	3		3	1			21	Plus 3
" 4	2	1	1	3	2		2		11	Plus 3
" 7	2	7	5	6	2				22	Plus 3
" 9	4	4		1	5	1			15	Plus 3
Totals	57	58	49	44	34	30	22	10	304	Plus 12

Appended to the above is a column to show any increase or decrease in membership by schools as compared with the membership on Feb. 1st, 1912, just a year previous. An analysis will reveal that the Jaffrey schools are showing a steady gain. This year there is a gain of twelve over the previous year and curiously enough, this is equally divided among the outside schools. This is mainly due to the growth of the community in population and a desire on the part of parents, teachers, and school officials for a longer school life. It is reasonable to suppose that the East Jaffrey Grammar School will show a membership next fall of from forty to forty-five, nearly double the size that it was two or three years ago.

During the fall term the sub-grammar school, with an average attendance of 53, and grade one in the Wooden Building

with an average attendance of 50, have been over-crowded. This condition was bettered by having the teacher of the fourth grade take charge of the pupils in the fifth grade for the period after recess, in the afternoon, till the close of school. In the case of grade one, seven children were promoted at mid-year to grade two and some from grade two to grade three. This arrangement equalized the membership of the schools in the Wooden Building.

In this connection I would make two recommendations, first, that a regular system of half year promotions be established in the first three grades in the East Jaffrey Schools and Second, that some provision be made for another room and an extra teacher for next year's expected enrollment of one hundred in the grammar and sub-grammar school rooms.

In this report I would like to say a word against the practice of children leaving school at the age of fourteen and going to work. Of course this is legal when the child obtains a certificate and perhaps in some families justified. To me, it is a short-sighted step. The school life is not half completed short of the grammar school graduation, and the scholar who leaves, enters life heavily handicapped. Those citizens who have influence in the community should set themselves squarely against such a practice, and encourage every child, foreign or native born, to remain in school until he at least receives his grammar school diploma.

Your superintendent has tried, among other things, to make school a more attractive place for children to attend and remain in. He has attempted to secure organized play by the children supervised by the teachers, and has in part succeeded. Outdoor and indoor basketball, recently introduced, has taken firm hold of the larger boys. It makes their bodies stronger, their minds more alert, and above all, helps to make school a less irksome place. More than half of the time, the school yard at East Jaffrey is extremely muddy. I believe this might be remedied by putting on several loads of sand and this topped off with gravel. The school yard at Jaffrey Center is also in need of grading and filling in to make a suitable approach for teams and a better playground for the scholars.

In addition to the above recommendations, I urge the purchase of slate blackboards for the outside schools. Their present blackboard space is limited and the surfaces are somewhat crude. The floors in the wooden buildings were oiled throughout and new blackboards installed in the two rooms of the upper story. This has done away with one-third of the dust and made the rooms more sanitary and more efficient for school

purposes. Most of the brush and trees around Number Four school house were cut, yielding the school a cord or two of wood and letting more light into the school house.

The present arrangement of the pupils of the grammar and sub-grammar schools in filing out to go to the basement is not satisfactory. They are obliged to go outdoors in line in cold weather. Yet under present conditions it has been the best working plan that could be devised.

In the school year 1911—12, Jaffrey had five teachers with Normal School training, three certificated by the state, and one who had received college training, as its instructors in the elementary schools. For the eight who were Normal graduates and certificated, the town received \$576 rebate from the state. This year the town will be reimbursed \$648 because of the training its teachers have had, if the present teaching force continues in office.

It will surprise some, I think, to know that the state of New Hampshire assists the town of Jaffrey in the maintenance of its schools to the extent of \$1375.76 this year. A large part of this income is based on average attendance of pupils and upon employment of qualified teachers. It is a tidy sum for school purposes, and the town should be, and is anxious to do its part of the bargain in order to receive it.

The Memorial exercises were held both at Union Hall and at Jaffrey Center. This arrangement proposed by former Supt. J. N. Pringle, proved more satisfactory than the one union exercise of previous years, and will probably remain in effect this year.

I desire in closing to thank those who have been kind and helpful to me, in the up-building of the school system of this town, and chiefly among them, Ex-Supt. J. N. Pringle, teachers and scholars and School Board.

Cordially yours,

WM. L. MACDONALD,

Superintendent of Schools.

East Jaffrey, N. H., Feb. 1st, 1913.

REPORT OF SUPERVISOR OF DRAWING.

TO MR. WM. L. MACDONALD, SUPERINTENDENT OF SCHOOLS.

I hereby submit my report of drawing in the Jaffrey schools for the year beginning Sept. 6, 1912.

The results in drawing have been very gratifying. The work began with a study of the autumn flowers, goldenrod, asters, etc., and was followed by the foliage. While color rioted everywhere out of doors we seized the opportunity it afforded to illustrate the meaning of the terms, standards, hue, tint, shade, scale, tone, harmony, etc. From flowers and branches we turned to trees. With the foliage gone, fruits, seed pods and vegetables were in order. This brought us to Thanksgiving. In the lower grades postcards were made and other work suited to the season was carried on, in the upper grades design, mind pictures from descriptive poetry, printing and work in charcoal were the principal features of the work.

From Thanksgiving to Christmas work for the holidays was the feature of interest. In the first two grades raffia napkin rings and candy boxes were made, in grade three, napkin rings and mats; in grade four woven mats of raffia; in grade five and six, brass pin and ash trays; in seven and eight, tea tiles of brass and burnt wood and raffia coat hangers. The pupils had the privilege of taking this hand work home to assist in their holiday making. At the Christmas exercises of the grades, this work was on exhibit especially in grades seven and eight where the school gave special Christmas exercises.

Considerable chalk work has been done in grades seven and eight.

The work from now on will consist of paper cutting and folding. Drawing and cutting of Toys, Composition, Design, Pose, Still Life and a study of the spring flora.

The district schools have each been visited every other week. The time spent in each school is forty-five minutes. As both music and drawing have to be taught in that time, and in most cases two classes in each subject, the drawing has not been as extensive as in the graded schools although the greater part of the work mentioned has been done to some extent.

Scissors, pencils, crayons, water colors, chalk and charcoal have been the mediums of expression.

In the High School there have been two classes in drawing, viz.: Freehand and Mechanical. Owing to the short period it

has been found expedient to hectograph directions for each member of the Mechanical class. Water color, chalk and charcoal work have been carried on in the Freehand class. The work has followed the season, color, nature, fruit, etc., and at Thanksgiving the designing and making of posters for the Senior drama, "A Suit of Livery." At Christmas designs for stencilling and embroidering hand bags, pillow tops and table runners, were made.

Here again I wish to thank the teachers for their hearty co-operation in the work and the Superintendent, Committee and Trustees for their interest and generosity in securing materials.

Respectfully submitted,

A. JEAN BROWN.

REPORT OF SUPERVISOR OF MUSIC.

TO MR. WM. L. MACDONALD, SUPERINTENDENT OF SCHOOLS.

At your request, I hereby submit for your consideration the report concerning the work in music in the public schools of Jaffrey.

As my term of service has been short my report must of necessity be the same.

The chief aim of the work during the fall term has been to make the individual pupil feel that his effort is needed to make the music acceptable; to rely on his own knowledge and ability and not on leaders. As a means to this end considerable individual work has been done. In rooms where there have been Weaver charts, those charts have been used, in the lower grades individual dictation and staff reading has been given. Good results have been obtained in this way both in tune and time while the pupil has gained for himself power of concentration ability to make rapid decisions and a knowledge of the necessity of accuracy.

Much ear training is being carried on in all grades. Rote songs have been used in the first three grades and songs suitable for Christmas have been learned in all grades.

The New Educational Books are in use throughout the town.

As my time in town is limited and so many of the pupils live at a distance, only a little special work has been accomplished so far. A girls' quartet from the seventh and eighth grades has been formed of girls living within a short distance of town

so that rehearsals might be held in the early evening. We hope more of this work may be done now that the holidays are passed.

The work in the High School has been chorus work, one half hour each week. For the first few weeks selections from the Corona song book were used but as the material was all familiar, several selections have been purchased and are enjoyed. An orchestra consisting of several violins, mandolins, flute and drums has been formed, also a girls' quartet.

I wish to extend my hearty appreciation to the teachers, throughout the town for their assistance in the work and, to you, Mr. Superintendent, and to the Members of the School Board and Trustees of the Conant High School, also, I wish to express my thanks for the interest and sympathy manifested in the work.

Respectfully submitted,

A. JEAN BROWN.

Report of the Water Commissioners.

For the year ending Feb. 15, 1913.

Two extensions were authorized by vote of the town and three have been completed during the past year. We are unable to give the exact cost of each extension but the approximate costs (not far from exact) are as follows:

Six inch line to Contoocook Inn and Woodmere 7893 ft., \$6356. Some 350 yards of rock, encountered where easy digging had been looked for, increased the estimated expense of this line by \$1418.

Six inch line with two hydrants, to plant of East Jaffrey Mfg. Co., \$393.

Six inch line to Shattuck Inn addition \$340.

WILBUR E. WEBSTER,

CHARLES L. RICH,

EDWARD C. BOYNTON,

Water Commissioners.

Auditors' Certificate.

We, the undersigned, certify that we have examined the Reports of the Selectmen, Town Treasurer, Overseer of the Poor, Trustees of the Town Library, Conant High School, and Indigent Fund, Tax Collector, District Treasurer, Board of Education, School Supplies, Highway Agents, Chief Engineer, Water Commissioners, and Board of Health and find them correct and properly vouched.

We have also examined the securities of the Conant High School, Indigent Fund, and Repair Fund, Clay Fund, Jane B. Stone Fund, Joel Parker Fund, Elvira S. Spaulding Fund, Sally M. Page Fund, Lydia F. Sanderson Fund, Amos Fortune Fund, Ermina M. Dickerson Fund, Perham Fund, Dexter Jewell Fund, Clay Prescott Fund, Thomas Upton Fund, Benjamin Heywood Funds, and found them as represented.
